

Memorandum of co-operation

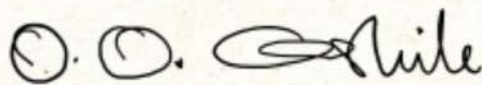

Between the
Africa Association of Quantity Surveyors (AAQS)
and the
Pacific Association of Quantity Surveyors (PAQS)

In recognition of the mutual interest and benefit to members of both organisations, this Memorandum of Co-operation (MOC) establishes the basis for cooperation between the Africa Association of Quantity Surveyors (AAQS) and the Pacific Association of Quantity Surveyors (PAQS).

This memorandum records the agreement reached between the two signatories virtually on and effective from 12 November 2021. The term of the MOC is 5 years from the beginning of the effective date.

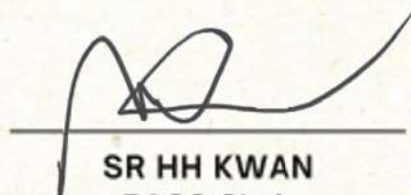

We agree that:

1. AAQS and PAQS will undertake to work together to promote internationally recognised standards and best practices in the field of Quantity Surveying within the construction and built environment professions.
2. The signatories will undertake to exchange information relating to each other's associations activities, including details of conferences, seminars and training programs which may be of interest to the respective memberships. Both parties agree in principal to publish this type of information on their respective websites.
3. The signatories will undertake to collaborate and assist where possible on research projects and other programs and initiatives developed by either association to promote the advancement of best practices in Quantity Surveying within the construction and built environment professions.
4. This MOC should not prevent similar relationships and/or agreements with other bodies.
5. This MOC is not legally binding on either party. Each party shall be responsible for their own financial obligations. For any changes or termination of the MOC, either party should give one-month written notice prior to the termination date and followed with thorough discussion, or less by mutual consent.
6. This MOC may be renewed by mutual agreement between the parties.

MR OO ONASHILE
President, AAQS

Signed on behalf of
Africa Association of Quantity Surveyors

SR HH KWAN
PAQS Chair

Signed on behalf of
Pacific Association of Quantity Surveyors

DATED 12 NOVEMBER 2021
